Project Eligibility Determination

All projects must meet at least one national objective. *Attachment B* describes the national objectives and how to determine low- and moderate-income (LMI) benefit.

A. Under which national objective will your project qualify? *Choose only one:*

Benefits residents with low or moderate incomes (LMI);

Aids in the elimination of slums and blight; or

Meets community needs having a particular urgency because conditions pose an immediate threat to public health or welfare (*Use only in consultation with NCD CED*); OR

Is a planning or fair housing project (*Must encourage multi-municipality or-agency cooperation*).

B. If qualifying your project under the LMI national objective, how will you determine benefit to low and moderate income residents? *Choose only one:*

The project serves an entire census block group in which 38.15% or more of residents have low or moderate incomes (refer to Appendix D in the Guidelines). List census tract _____ and block group # _____

The project serves an area that is smaller than a census block group. Call DCED for eligible census tract information in order to demonstrate that 51% or more of residents have low or moderate incomes.

The project will serve a group of persons who are presumed eligible for assistance because they are in one of the following categories: seniors; adults with disabilities; homeless & homeless Veterans; battered spouses; abused/neglected children and youth; illiterate adults; migrant farm workers; persons with HIV/AIDS; and persons who use food banks or meals programs.

The project will serve specific persons or households (i.e.: housing assistance). We will verify the incomes of individuals or households before approving their participation (see Appendix C of the Guidelines for current income limits).
