

2020 Grow NORCO Program Guidelines

Addendum

Many organizations have incurred costs for COVID-19 related improvements prior to our 2020 Grow NORCO funding announcement. As the Federal Government recognizes March 13, 2020 as the start of COVID-19, the County of Northampton will allow items purchased on or after March 13, 2020 as eligible for inclusion in your 2020 Grow NORCO project.

Applicants may not supplant other COVID-19 emergency relief funds that may have been used to purchase said items. The project budget and narrative should clearly indicate items that have already been purchased, the exact cost of said items and the source of funds used to purchase the items.

Questions and concerns may be directed to:
