**INDEPENDENT INTERNAL AUDITOR'S REPORT ON APPLYING AGREED-UPON PROCEDURES**

Members of the Northampton County Council  
John Stoffa, County Executive  
County of Northampton, Pennsylvania

We have performed the procedures enumerated below, which were agreed to by the Acting Director of Fiscal Affairs solely to assist you with evaluating the accuracy of 2012 tax reimbursements via millage rate reductions for municipalities not participating in the County's 911 System, and the calculation of variances between amounts based on the estimated millage reduction and the amounts based on the actual 911 expenses from 2011. Management is responsible for the calculation and application of the millage reduction. This Agreed-Upon Procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and the standards applicable to attestation engagements contained in *Government Auditing Standards* issued by the Comptroller General of the United States. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

**Procedures and Findings**

1. **Procedure:** We will review and verify all calculations which resulted in millage reductions for affected municipalities.

**Findings:** We traced all data used in the calculations to supporting documentation and reviewed the conceptual basis for using certain data in the computation of the millage reduction. We also recalculated all computations. We found the estimated millage reduction to be reasonable and all calculations accurate.

2. **Procedure:** Using actual expenses, we will determine the variance between these expenses and the amounts used to calculate the estimated millage reduction. Variances will be reported to you for use in future millage reduction calculations.

**Findings:** We found that the calculated total due to taxpayers based on actual 2011 expenses was \$471,489. The lower millage rate reduced taxes by \$478,277 resulting in a reduction to taxpayers that was \$6,788 more than actual expenses. (The millage rate assessed to the affected municipalities was 10.4 mills; the remainder of the County was assessed at 10.8 mills.) The 2012 difference will be recaptured in the 2013 millage reduction based on actual expenses.

We were not engaged to and did not conduct an examination, the objective of which would be the expression of an opinion on the millage reduction to municipalities not participating in the County's 911 system. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the management of the County of Northampton, Pennsylvania and is not intended to be and should not be used by anyone other than these specified parties.
