Mr. Spagnola reported that 2018 was a bad year for capital markets. All sectors except healthcare and utilities were negative. Mr. Heckman asked about whether the trade sanctions with China were affecting the market and Mr. Spagnola answered yes. Mr. McClure asked about the impact that program trades had on the Fund. Mr. Spagnola discussed that many Exchange Traded Funds are modelled to sell on certain triggers and that has impact on the market. Mr. Barron asked about the effect of the Federal Government’s borrowing and Mr. Spagnola responded that the deficit does not help but is not squeezing borrowing at this time; the United States is already running a trillion dollar deficit. Mr. McClure added that we saw this occur before in the late 1980’s and early 1990’s and also experienced high inflation. Mr. Spagnola remarked that economies are well run and keep wage inflation low. Mr. McGee remarked that the Fund has been operating with this investment policy for a long time (65% equities) and asked if there was a plan for switching managers periodically. Mr. Spagnola answered that there is no calendar to changing managers and that the Board gets the news of manager changes as it occurs.
