

Bulb/Lamp Recycling

All lamps and bulbs other than incandescent bulbs require proper disposal. These items contain mercury and other heavy metals that can be harmful to people and the environment. If bulbs are broken, burned or landfilled, metals and other toxic substances can be released into the environment. This risk makes it important to properly dispose of light bulbs.

Locations	Ballasts	Circular Fluorescent	CFLs	Fluorescent	Halogen	HID	High-pressure Sodium	Incandescent	LED	Light Fixtures	Mercury Vapor	Metal Halide	Quartz Halogen	Spot/Flood	Shatter shields & Coated	String Lights	U bend Fluorescent	Ultraviolet
